

## Gluten-Free Company Launches New Website For Its Online Store Featuring Handmade And Local Blend Gluten-Free Pizza Bases And Breads

*Totally Gluten Free Products offers high-quality handmade gluten-free products made locally and blended according to the design of the company. A variety of products are available on a B2B basis as well as online.*

Shepparton East VIC: Totally Gluten Free Products and founder, Palmira Rigoli are pleased to announce the launch of their new website. The [gluten-free company](#) has recently had their website redesigned by agrtech and prides itself on high quality handmade gluten-free products made locally with their blending. The product line has been created to meet the needs of wholesale and retail customers and is always looking to expand.

TGFP products include [gluten-free pizza bases](#), bread, and arancini balls. The company offers its products for sale to other businesses as well as consumers through its online store. Incorporating the Sicilian passion for food, the company has worked hard to bring taste and excitement to those who have Coeliac disease. Although those on the Coeliac diet can use traditional pizza bases and other types of dry mixes, the TGFP products are as tasty as standard gluten ingredient offerings.

TGFP customers benefit from Palmira's personal and successful approach to the management of Coeliac's Disease. She works hard to encourage others to help each other. The company's founder was diagnosed with the disease 17 years ago and immediately turned her attention to identifying fresh, inexpensive, and healthy ingredients to her own problem, and that of other community members.

Additional information is available at <https://totallyglutenfreeproducts.com/>

At age eighteen, Palmira moved from her Sicilian home to Australia. Over the years, she has continued cooking and experimenting with ingredients. She has published two popular gluten-free cookbooks. Palmira is dedicated to growing her business to bring beautiful food to every table regardless of dietary restrictions.

Demonstrating gluten-free cooking to a variety of audiences allows for Palmira to meet customers and hear their stories. She is constantly experimenting with developing new products, as well as improving existing ones.
